## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 31 October 2002.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Response to Amendment***

1. This Office Action is responsive to the Amendment filed 10/31/02.
2. The Amendment filed 10/31/02 successfully overcomes the rejections set forth in paragraph 2 of the First Office Action dated 7/31/02. Accordingly, this rejection is withdrawn.

***Claim Objections***

3. Claim 11 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim 11 presents the limitation "wherein the photomask contacts the surface of the core layer", however this embodiment has been deleted from claim 1, as amended. Therefore, claim 11 does not further limit claim 1.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 1756

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-32 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S.

Patent No. 6,306,563 to Xu et al. (Xu) as set forth in paragraph 1 of the First Office Action, and as further discussed below.

### ***Response to Arguments***

5. Applicant's arguments filed 10/31/02 have been fully considered but they are not persuasive.

Applicant argues that Xu fails to teach a method for producing a polymer waveguide on a substrate in which a photomask is placed at a level above and not in contact with a core layer. However, Xu teach utilizing proximity and projection exposure, as well as contact exposure, for controlling the spatial profile of actinic radiation when exposing through a mask. See column 24, lines 18-29.

Furthermore, Applicant argues that Xu fails to teach exposing the core through the photomask in a vacuum or inert gas atmosphere. However, with respect to the masked exposure, Xu states that the sample is "placed in a purge box as above and exposed" (see Example G, specifically column 33, lines 30-31). As discussed above in this example, the purge box is utilized to expose the sample to a nitrogen atmosphere. Clearly, the exemplified masked exposure in the purge box takes place in such a nitrogen atmosphere, as this is the purpose of utilizing the purge box.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
